Contents of Volume 18

Number 1, July/August 1989

A comparative study on the immunological effects of bovine and porcine thymic extracts: induction of lymphoproliferative response and enhancement of interleukin-2, γ-interferon and tumor necrotic factor production in vitro on cord blood lymphocytes
C.-Y. Lin and T.L.K. Low (Taiwan) 1

Involvement of Ca^{2+}-dependent pathways in the inhibition of human natural killer (NK) cell activity by cortisol
R. Masera, G. Gatti, M.L. Sartori, R. Carignola, A. Salvadori, E. Magro and A. Angeli (Italy) 11

Distinct effects of aminopterin on stimulation of T and B lymphocytes with mitogen
V. Holáň and J. Štědra (Czechoslovakia) 23

Effect of interferon, interleukin-2 and tumor necrosis factor on myocardial cell viability and doxorubicin cardiotoxicity in vitro
R.T. Dorr and N.G. Shipp (U.S.A.) 31

Prevention of benzene-induced myelotoxicity and prostaglandin synthesis in bone marrow of mice by inhibitors of prostaglandin H synthase
S.J. Pirozzi, M.J. Schlosser and G.F. Kalf (U.S.A.) 39

Suppression of lymphocyte mitogenesis by tamoxifen
E. Baral, S. Kwok and I. Berczi (Canada) 57

Alloimmunization-induced changes in β-adrenoceptor expression and cAMP on B lymphocytes
A.M. Genaro and E. Borda (Argentina) 63

Announcements 71

Number 2, September/October 1989

Effect of bacterial purified antigenic fractions on natural defence mechanisms
W. Luini, S. Sozzani, L. Braceschi, A. Vecchi and F. Spreafico (Italy) 73

Depression of the immune responsiveness in mice treated with thioacetamide after antigen exposure
G. Malvaldi, G. Batoni, P. Marelli, I. Zolfino, S. Senesi, R. Danesi and M. Campa (Italy) 81

Increased plasma beta-endorphin levels in hereditary angioedema
R. Perricone, C. Moretti, C. De Carolis. G. De Sanctis, L. Gnessi, A. Fabbri, F. Fraioli, A.E. Panerai and L. Fontana (Italy) 89

The effect of intravenous immunoglobulin on the in vitro function of human neutrophils
J.W.M. Lawton, J.P. Robinson and G.O. Till (U.S.A.) 97

Thymosins α_1 and β_4 potentiate the antigen-presenting capacity of macrophages
E.Tzehoval, M.B. Sztein and A.L. Goldstein (U.S.A.) 107

Augmented macrophage PGE_2 production following exposure to dimethylnitrosamine in vivo: relevance to suppressed T cell responses
M.J. Myers, W.P. Hanafin and L.B. Schook (U.S.A.) 115

Induction of serum colony-stimulating activity (CSA) following dimethylnitrosamine (DMN) exposure: effects on macrophage differentiation
M.J. Myers, A.L. Witsell and L.B. Schook (U.S.A.) 125

The mechanisms of the inhibitory effects of liver extract on lymphocyte proliferation. III. The effects of arginase on DNA polymerase activities
Her-Lin Su, Ming Ho Huang, Chia Li Yu, Shou Hwa Han, B.N. Chiang and Soo Ray Wang (Taiwan, ROC) 135

Natural killer activity in hyperprolactinemic patients
L. Matera, E. Ciccarelli, A. Cesano, F. Veglia, C. Miola and F. Camanni (Italy) 143

Announcements 147

Number 3, November/December 1989

In vivo cadmium treatment alters natural killer activity and large granular lymphocyte number in the rat
M.G. Cifone, E. Alesse, R. Di Eugenio, T. Napolitano, S. Morrone, R. Paolini, G. Santoni and A. Santoni (Italy) 149

Suppression of avidin processing and presentation by mouse macrophages after sublethal exposure to dieldrin
K. Krzystyniak, D. Flipo, S. Mansour and M. Fournier (Canada) 157

Phosphatidylserine-induced modulation of the immune response in mice: effect of intravenous administration
D. Ponzin, C. Mancini, G. Toffano, A. Bruni and G. Doria (Italy) 167

Histamine release from β-escin-permeabilized rat peritoneal mast cells and its inhibition by intracellular Ca^{2+} blockers, calmodulin inhibitors and cAMP
K. Izushi and K. Tasaka (Japan) 177

1,25-Dihydroxyvitamin D_3 acts directly on human lymphocytes and interferes with the cellular response to interleukin-2
R. Koren, U.A. Liberman, L. Maron, A. Novogrodsky and A. Ravid (Israel) 187

The antiviral drug amantadine has a direct inhibitory effect on T-lymphocytes
C. Clark, M.M. Woodson, V.B. Winge and H.T. Nagasawa (U.S.A.) 195

8-Mercaptoguanosine-mediated enhancement of in vivo IgG1, IgG2 and IgG3 antibody responses to polysaccharide antigens in normal and *xid* mice
J.J. Mond, K. Hunter, J.J. Kenny, F. Finkelman and K. Witherspoon (U.S.A.) 205

In vitro effects of an acyltripeptide, FK565, on antitumor effector activities and on metabolic activities of human monocytes and granulocytes
Y.-L. Wang, S. Kaplan, T. Whiteside and R.B. Herberman (U.S.A.) 213

Lymphocyte proliferation in glutathione-depleted lymphocytes: direct relationship between glutathione availability and the proliferative response
D.L. Hamilos, P. Zelarney and J.J. Mascali (U.S.A.) 223
